FINAL EXPENSE SCRIPT

Inbound & Social Media Leads

Opening • Qualification • Needs Analysis • Health Inventory • Presenting Options • Closing • Application

AGENT COACHING: Speak calmly and confidently. Keep the conversation natural. Ask one question at a time, listen to the answers, and use the client's name throughout the call. Never guarantee approval or promise policy benefits until the specific carrier and product have been verified.

STEP 1 — YOUR OPENER

AGENT SAYS:

Hey, this is AGENT. I'm gonna be helping you with the final expense coverage today!

(PAUSE)

Awesome. And who do I have the pleasure of speaking with?

(PAUSE — WAIT FOR THEIR NAME)

Great! How old are you?

(PAUSE)

Perfect!

Any major health conditions?

(PAUSE — LET THEM ANSWER)

All right, I'm gonna get some options for you that are affordable for ya, and then we're gonna submit your application for coverage today.

Can you confirm these three things for me?

First, that you're a U.S. citizen, if that's a requirement for the program we're looking at.

Second, that you have a valid routing and account number available if we find a policy that you want to apply for.

And third, that you're getting this policy on yourself and not on someone else?

(WAIT FOR CONFIRMATION)

Perfect! Let's go ahead and get this taken care of for you.

STEP 2 — ESTABLISH THE PURPOSE OF THE CALL

AGENT SAYS:

Now, just so I can make sure I'm helping you with the right thing, you were looking into final expense coverage to make sure your family isn't left with a bunch of bills when you pass away, correct?

(PAUSE — LET THEM RESPOND)

Absolutely. And that's exactly what we're going to look at today.

My job is to help you compare the available options, find out what you may qualify for, and make sure we look at something that fits comfortably into your budget.

We're going to look at a few different options, and I'll explain what each one does so you can decide which makes the most sense for you.

Sound fair enough?

(WAIT FOR YES)

STEP 3 — UNCOVER THE WHY

AGENT SAYS:

Now, let me ask you something.

When you pass away, who would be the person responsible for handling your final expenses?

(LET THEM ANSWER)

Okay, and what's their name?

(WRITE DOWN THE NAME — USE IT THROUGHOUT THE CALL)

And is that the person you'd want receiving the money from your policy?

(CLARIFY THE BENEFICIARY IF NEEDED)

Perfect.

Now, most people who look into final expense coverage are usually concerned about one of three things.

First, they want to make sure their funeral and burial or cremation expenses are taken care of.

Second, they don't want their children or other family members to have to come up with thousands of dollars unexpectedly.

And third, some people simply want to leave a little something behind for the people they love.

Which of those is most important to you?

(PAUSE — LET THE CLIENT EXPLAIN)

I completely understand. And that's a big reason people look into this coverage.

(PERSONALIZE BASED ON THEIR ANSWER)

So, for you, the main thing is making sure that **[BENEFICIARY'S NAME]** doesn't have to worry about those expenses when the time comes, correct?

(WAIT FOR CONFIRMATION)

Absolutely. Let's see what we can put together for you.

STEP 4 — SET THE STAGE

AGENT SAYS:

All right, here's what I want to accomplish for you today.

First, I want to find something that's affordable. The last thing I want is for you to get a policy that strains your budget and becomes difficult to maintain.

Second, I want to look at the options that best fit your health and eligibility. Different insurance companies have different underwriting guidelines, so we'll look at the carriers and products available to you.

And third, I want to make sure you understand exactly what you're applying for, what it costs, and how it would help your family.

Because the whole point of this is to make sure your family has the protection you intended to leave them.

Does that make sense?

(WAIT FOR YES)

Perfect. Let me ask you a few more questions so I can narrow this down.

STEP 5 — FINANCIAL AND HOUSEHOLD INVENTORY

AGENT SAYS:

First, tell me a little bit about your situation.

1. Are you currently working, retired, or receiving Social Security?
2. Do you have a spouse or partner living in the household?
3. Are you living on a fixed income, or do you have other sources of income coming in?
4. Do you own your home, rent, or have a mortgage?
5. Do you currently have any life insurance outside of work?
6. Do you have any coverage through a previous employer, the military, or another program?
7. Do you have any savings or other funds that you would want your family to use for your final expenses?

(LISTEN AND TAKE NOTES — DON'T RUSH THE CLIENT)

AGENT SAYS:

Okay, that helps me understand your situation a little better.

Now, if something happened to you tomorrow, do you feel like **[BENEFICIARY'S NAME]** would have enough money available to cover your final expenses without having to struggle financially?

(PAUSE)

I understand.

And that's exactly why we're looking at this now, while we have the opportunity to see what coverage may be available to you.

The goal is to have a plan in place before your family ever has to face that situation.

STEP 6 — HEALTH INVENTORY

AGENT SAYS:

All right, now let's talk about your health for a minute.

I'm going to ask you a few questions because insurance companies have different health requirements. Your answers will help me determine which options may be available.

ASK ONE QUESTION AT A TIME:

1. Are you currently taking any prescription medications?
2. What medications are you taking, and what are they prescribed for?
3. Have you ever been diagnosed with diabetes, high blood pressure, heart disease, or any other major health condition?
4. Have you ever had a heart attack, stroke, cancer, or major surgery?
5. Have you been hospitalized or visited the emergency room recently?
6. Do you have any breathing conditions, such as COPD, emphysema, or asthma?
7. Do you have any kidney or liver conditions?
8. Have you ever been diagnosed with Alzheimer's disease, dementia, or another neurological condition?
9. Do you currently use tobacco or nicotine products?
10. Have you ever been diagnosed with HIV or AIDS, or received treatment for any other serious condition that an insurer may ask about?
11. Are you currently receiving treatment from a doctor for anything significant?

(ASK ANY ADDITIONAL QUESTIONS REQUIRED BY THE SPECIFIC CARRIER'S APPLICATION.)

AGENT SAYS:

Okay, thank you for walking me through that.

I want to make sure we look at a company whose guidelines fit your situation as closely as possible.

Some companies are more flexible with certain health conditions than others, so we'll use your answers to narrow down the available options.

I can't promise approval until the insurance company reviews the application, but I'll help you look at the options that make the most sense.

STEP 7 — EXPLAIN HOW FINAL EXPENSE COVERAGE WORKS

AGENT SAYS:

Now, let me explain how final expense insurance generally works.

Final expense coverage is usually a type of life insurance designed to help your family with expenses after you pass away.

Depending on the policy, that money may help with funeral costs, burial or cremation expenses, outstanding bills, or other expenses your beneficiary needs to handle.

The money is generally paid to the named beneficiary, subject to the policy's terms and claim requirements.

With the right policy, you can have a plan in place instead of leaving your family to figure everything out on their own.

Now, there are a few important things we want to look at when choosing a policy.

FIRST — THE AMOUNT OF COVERAGE.

We want to find an amount that provides meaningful help to your family without costing more than you can comfortably afford.

SECOND — THE MONTHLY PREMIUM.

We want to make sure the payment fits your budget and is something you can maintain over time.

THIRD — THE POLICY'S BENEFITS AND LIMITATIONS.

Some policies provide a level death benefit from the beginning, while others have a waiting period or a graded benefit. We need to verify which type we're looking at before you apply.

And depending on the policy, premiums may be level and coverage may be designed to last for your lifetime, provided the policy remains in force and its requirements are met.

Does that make sense?

(WAIT FOR YES)

Perfect. Now let's look at what may be available for you.

STEP 8 — TRANSITION TO THE OPTIONS

AGENT SAYS:

All right, based on what you've told me so far, I'm going to look at the options that may fit your age, health, and budget.

I want to show you three different levels of protection.

We'll start with an option designed to help cover the basics, then look at a little more coverage, and finally a higher level of protection.

That way, you're not just looking at a price. You're comparing what each option could mean for your family.

Let me walk you through them.

STEP 9 — PRESENT THREE OPTIONS

Only present coverage amounts, premiums, and policy features that have actually been verified for this client.

OPTION 1 — SILVER: BASIC PROTECTION

AGENT SAYS:

Okay, the first option is our basic protection option.

This would provide **$[DEATH BENEFIT]** in life insurance coverage.

The idea here is to give **[BENEFICIARY'S NAME]** money that could help with your final expenses and reduce the financial burden on the family.

The monthly premium would be **$[MONTHLY PREMIUM]**.

This is the option we'd look at if keeping the monthly payment as low as possible is your biggest priority.

How does that sound so far?

(PAUSE)

OPTION 2 — GOLD: MORE PROTECTION

AGENT SAYS:

Now, the second option gives you a little more protection.

This one provides **$[DEATH BENEFIT]** in coverage for **$[MONTHLY PREMIUM]** per month.

The advantage is that it would provide your beneficiary with a larger benefit to help handle final expenses and other financial needs after your passing.

For many people, this is worth considering because it gives their family a little more breathing room without going all the way up to the highest coverage amount.

How does that compare with the first option for you?

(PAUSE)

OPTION 3 — PLATINUM: MAXIMUM PROTECTION WITHIN YOUR BUDGET

AGENT SAYS:

And then we have the third option.

This one provides **$[DEATH BENEFIT]** in coverage for **$[MONTHLY PREMIUM]** per month.

This gives **[BENEFICIARY'S NAME]** the largest death benefit out of the three options we're comparing.

It could provide additional financial flexibility for your family when they need it most, depending on their circumstances and the policy's terms.

Of course, we still want to make sure the payment is comfortable for you.

Out of these three options, which one do you feel would provide the right balance between protecting your family and staying within your budget?

(STOP TALKING. GIVE THE CLIENT TIME TO ANSWER.)

STEP 10 — THE CLOSE

AGENT SAYS:

Great, most people choose that one.

So, before we move further… this application will take 5 minutes to submit. I want to make sure you have my number saved because you will now be one of my People and we'll be speaking so I want to make sure when I call my number comes up. Expect a call from me in 1-3 business days once we get that update of if you are approved or declined….is there a good time to reach out to you?
[PLACE THEM IN YOUR SCHEDULE]

Ok great, if you don't answer I'll shoot you a text and just call me when you're free. ***Hopefully*** we will get approved and then they mail the policy to you in the mail within 14-21 business days. Very important you write my name and number on the packet. I'm also going to ask that you give **[BENEFICIARY]** my info so that they know about all of this. My office or my team and we will handle everything for them with the insurance carriers in a very difficult time. Sound good to you ?

Great…now a couple things the insurance carrier will require:

TALK SLOW
1. I need you to grab your valid ID…I need to ID-Check you and make sure I've been talking to you **[CLIENT]** the whole time and no one is trying to get insurance in your name.
2. Grab whatever checking and routing number* you want associated with this every month,* have that ready to read off to me at the end.
3. And then, do you have a primary care doctor that you see?
4. What is the name of your doctor and what city do you see them in?
5. Okay. When you have your valid ID in front of you, let me know. I do have to ID check you.

6. Read me the driver's license number off the front.
7. Okay is this a valid license in **[STATE]**
    - Okay Verify your date of birth.
    - And your middle initial.
    - And your Full Social.
    - And the state or country that you were born in.
    - The phone number we want is_____, right?
    - The email we want is_____, right?
    - Okay, and who are you using for banking?
    - Okay the routing number for them when you have it.
    - Okay the account number for them when you have it.

<PROCESS APPLICATION>

Okay, now that we've submitted that, it typically takes 1–3 days for approval. And if approved, the payment is processed 1–3 days after that. Now if you see that payment come out before we have our call, jump up and down, give yourself a high 5 cuz that means you are approved! That's awesome! We'll do our Approval call then about 1–2 weeks later, you'll receive the big policy packet in the mail like we discussed.

Hey **[CLIENT]**, before we wrap up, I want to make sure you're fully protected moving forward. I'm officially your agent for life, so anything you ever need, whether it's updating your coverage, making changes, or just asking questions, call me. Now one important thing…there are **A LOT** of scams out there right now, especially around life insurance and mortgage protection. No one from our office will ever call you about your policy unless I personally let you know ahead of time. **NOT EVEN THE INSURANCE COMPANY**. If anyone reaches out and it's not me, hang up and call me directly. Think of me as your security, I'm here to protect you and your information. Sound good?

You are all set here until our Approval call. Did you have any questions for me? Then you are good to go. You have my contact here if you need anything, but you should be all set. I'll talk with you in a couple of days.If they hesitate at the close, ask:

QUICK OBJECTION RESPONSES

“I NEED TO THINK ABOUT IT.”

AGENT SAYS:

Absolutely. It's important that you feel comfortable with your decision.

Can I ask what you'd like to think through most — the monthly payment, the amount of coverage, or whether this is the right type of policy for you?

(LISTEN AND RESPOND TO THEIR ACTUAL CONCERN.)

“I CAN'T AFFORD IT.”

AGENT SAYS:

I understand. The payment needs to fit your budget.

Let's look at a lower coverage amount or another available option that may be more comfortable for you. I'd rather help you find something sustainable than have you commit to a payment that puts pressure on your finances.

Would you be comfortable looking at a smaller amount of coverage?

“I ALREADY HAVE LIFE INSURANCE.”

AGENT SAYS:

That's good to know. Let's look at what you already have before deciding whether you need anything else.

Do you know how much coverage you have and who the beneficiary is?

(REVIEW EXISTING COVERAGE AND IDENTIFY ANY ACTUAL GAP BEFORE RECOMMENDING ADDITIONAL INSURANCE.)

“MY FAMILY WILL PAY FOR MY FUNERAL.”

AGENT SAYS:

They certainly may choose to help, and it's wonderful to have family who cares.

The question is whether you'd prefer to leave them the responsibility of finding that money when the time comes, or whether you'd like to explore a way to provide a death benefit that could help with those expenses.

There's no one right answer for every family. Let's see what coverage, if any, makes sense for you.

“JUST TELL ME HOW MUCH IT COSTS.”

AGENT SAYS:

Absolutely. The price depends on your age, health, the amount of coverage, and the policy available to you.

Let me verify the options so I can give you an accurate premium instead of guessing.

“I DON'T WANT TO GIVE MY BANK INFORMATION.”

AGENT SAYS:

I understand, and you shouldn't share sensitive financial information unless you're comfortable with the process.

I'll explain the carrier's payment options and how the information is used. We can proceed only if you choose an available payment method and authorize it. If you don't want to provide the information required for a particular option, we can discuss whether another method is available.

“CAN YOU GUARANTEE I'LL BE APPROVED?”

AGENT SAYS:

I can't guarantee approval. The insurance company makes that decision based on its underwriting requirements and the information in your application.

What I can do is help you identify the available options and complete the application accurately.

“I WANT TO TALK TO MY CHILDREN FIRST.”

AGENT SAYS:

Of course. It's completely reasonable to want to discuss a financial decision with your family.

Would it help if I gave you a clear summary of the coverage amounts, premiums, and policy terms so you can review them together?

We can arrange a time to follow up after you've had a chance to talk.

AGENT'S FINAL REMINDER

The goal is not simply to submit an application. The goal is to help the client understand the coverage, choose an affordable option, provide accurate information, and make an informed decision.

Never promise guaranteed approval, immediate coverage, fixed premiums, or lifetime coverage unless those features are confirmed in the specific policy being presented.

The best policy is one that meets the client's needs, fits their budget, and remains in force when their family needs it.
