Dialing 123 Script

Hi ***[CLIENT'S NAME]*** this is ***[YOUR FULL NAME]*** I am the specialist that handles the mortgage protection and your property on ***[STREET NAME]*** needs review…back when you closed with ***[LENDER]*** we sent you some mailers about the protection…Right, where it pays for the home when you get sick or pass away.

You mailed it back into us… But for some reason, I don't have anything written down…. Have you spoken with anybody about this yet…did you ever set anything up for the protection?

Okay, perfect* - that's the reason I'm calling.* I just need to schedule a phone appointment with you that'll take about 20 minutes or so. We just have to go over that coverage with you as the homeowner for liability purposes, * and then from there *you'll be all set. **(CONTINUE)**

Just for security, we are at ***[FULL ADDRESS]***?

Is it just you in the home, or is there a spouse or significant other in the home with you as well?

> If Yes: Okay, then they'll need to present on that call as well..."
>
> If NO: continue script…"Alright…"

Other possible responses:

"Yes, but I take care of all this stuff…"
Okay, would they be the beneficiary of the home?

> If Yes: Okay, then they'll need to present on that call as well so you both understand how this will be paying out to you both…"

If NO: Are they a part of the finances or decisions for the home?

If NO again: Okay, no problem. Is there any reason you want them on that call as well?

TIE DOWNS

Alright,* let me take a look at my schedule here real quick.... I do have *some* availability this afternoon or evening…OR I have some space now. Any reason why we can't just knock this out now?

IF NO TO OCC: Okay no problem. I have *some* availability this afternoon or evening Which would you prefer? Sounds good. I can do either (1 hour timeframe) or (1 hour timeframe). Which would you prefer?

Alright, if you will, grab something to write with real quick - I just need to give you your security code, let me know when you're ready for that.

- That security code is _____
- ***PAUSE*** (Wait until they say OKAY).
- Write my name, ____
- ***PAUSE*** Wait until they say OKAY).
- And then write (Today/Tomorrow) ***PAUSE*** between (1hour timeframe).
- ***PAUSE*** (Wait until they say OKAY).

<REPEAT, name, code, and timeframe>

And do you want me to call this number right here for our appt ending in ____? And do you get text messages on this line?

OK perfect,* I'll shoot you a text when I'm about 10 minutes out from wrapping up with the homeowner that's right before you.

If you will, **[CLIENT'S NAME]** just do me a huge favor as I let you go here*... once we hang up, if you'll just set an alarm, put it in your calendar, just be **intentional** please as a **courtesy** to myself to make sure you have your phone near you during that timeframe of (1 hour timeframe). I would would really appreciate it, okay?

Okay! You're all set. Have a good day and I'll talk to you tomorrow between (1 hour timeframe).

REBUTTALS

After calmly answering, ALWAYS dive right back into the Main Dialing Script

I HAVE LIFE INSURANCE.

Ok, got it.* So, Mortgage protection is a form of Life insurance that pays off the house when you die, get sick or disabled. ***Honestly***— most people typically replace what they have because it pays out the exact same way that your policy does— the only problem is that life insurance ***only*** pays out in one way, and this pays out in four. <Get back into script>

"I'M GOING TO PAY THE LOAN OFF VERY SOON"

That's great! So legally this has to pay out directly to your hands whether the home is paid off or not so— either way you win. <Get back into script>

IM NOT WITH THAT LENDER ANYMORE

Yeah, it just originated with <Lender>. Your lender will change multiple times over the course of your loan. <Get back into script>

IS THIS SOMETHING I HAVE TO PAY FOR?

For your whole home to be paid off? Yes. There is a monthly cost for that. Is this your first time having a home and loan?<Get back into script>

HOW MUCH DOES IT COST? (DON'T GIVE A NUMBER)

Totally fair question. The reason why we schedule the appointment is so you can customize it depending on your situation. <Get back into script>

I DON'T NEED IT

Oh okay gotcha, I'm assuming that's because you have life insurance right?<Listen to them>
Okay Mortgage protection is a form of Life insurance that pays off the house when you die, get sick or disabled. ***Honestly***— most people typically replace what they have because it pays out the exact same way that your policy does— the only problem is that life insurance ***only*** pays out in one way and this pays out in four. <Get back into script>

I'M BUSY OR I'M WORKING

Yeah <Client> I don't have time to go through everything right now either. ***THIS*** call is just to find a time a time to fit it into both of our schedules. Do you prefer afternoon or evening? <Get back into script>

EMAIL ME:

Oh I wish I could <Client>. That would make my job so much easier… I just need to have that appointment with you to even determine which protection would be the best fit. <Get back into script>

I HAVE *COVERAGE* THROUGH THE VA (VETERAN)
Oh, gotcha. So <Client> You've probably noticed they've been taking a little more and a little more out of your check. When is your next increase? <Listen to them> Okay, I help Veterans lock in their price forever. Let's do this.. Let's set up an appointment to see what's available to you as a Vet. <Get back into script>

THE VA WILL PAY OFF MY LOAN
Got it, So the VA helped you get approved for the loan right? Gotcha, so I'm sure you already know this but if you default on the loan the VA pays out just 25% of the loan to <Lender> but that unfortunately doesn't pay out to you. So my job is to show you programs ***Are*** available to you as a Vet. That's actually why they have us schedule the phone appointment. <Get back into script>

I ALREADY HAVE AN APPOINTMENT LATER
Yes, they have me taking over that appointment for scheduling reasons. I'll have to place you in my own schedule. What time was your appointment scheduled for ? I'll try to keep it around the same timeframe… (Be **SURE** to schedule **BEFORE** their current appointment)

WHO ARE YOU WITH?
I am with Pinnacle Life Group. We handle mortgage protection for every lender in the state. My job is to go over the coverage with you as the homeowner for liability purposes. <Get back into script>

YOU GUYS WONT STOP CALLING ME!
That's exactly why I'm calling. Did you get denied for coverage the first time?<Get back into script>

I CAN'T AFFORD IT
Got it. It's my main job to customize options for you that are manageable and in your budget. You choose the amount that's comfortable for your family. We'll work together on it, it's just too important not to. <Get back into script>

CAN I GET IT IN PLACE LATER? I JUST GOT THE HOUSE
I totally get it, there's never a good time for a new bill, but this is the one bill that is going to pay all your other bills on the worst day of your life. Delaying coverage only makes things more expensive and harder to get as you get older. <Get back into script>

TAKE ME OFF YOUR LIST
There is no list <Client> is this your first time going through the process? <Get back into script>

IT WONT COVER MY FULL MORTGAGE
Yep! <Lender> doesn't care if you have the full amount of your mortgage covered, all they care about is if you were to miss two payments in a row, then they can start the foreclosure process.<Get back into script>

ARE YOU TRYING TO SELL ME SOMETHING?
I don't work on any sales quotas. My job is to make sure you understand how the coverage works and if you decide to protect yourself, that's completely up to you. Is this your first time going through the process? <Get back into script>

I WAS JUST LOOKING FOR A QUOTE or SHOPPER
Okay! That's perfect! You're on the phone with the right person! I'm gunna ask you a couple of questions pop your answers into my system and give you the best price for the coverage. You'll never have to speak to anyone else. <Get back into script>

I HAVE AN AGENT
Okay <Client> so this is going to go one of two ways you're going to run into 2 types of agents. Captive agents work for 1 Carrier and they're going to tell you why their carrier is the best…because they only have 1.. The other type is a broker, that's what I am, we are contracted with every carrier in the state so I'm just going to give you the best price for this coverage. <Get back into script>

IS THIS REQUIRED?
So <Lender> isn't going to make you protect yourself, it's actually better for them if you don't, however homes are a pretty large liability so most homeowners are pretty eager to protect them. Is this your first time having a home/loan? <Get back into script>

CLIENT IS DRIVING AND CAN'T WRITE DOWN THE INFORMATION
Okay, not a problem. Does this phone receive text messages?

> **(If Yes)TALK SLOWWWW**
> Okay I'm going text you the confirmation for the appointment. They do make me give you the information over the phone so <Say code, time, and name> Which will all be in the text. Once you see that, just send back and "Okay" or a Thumbs up so we know you saw it, and we'll talk to you at <timeframe>
>
> **DRIVING TEXT:**
> Confirmation code: (Your Code)
> Specialist: (Your name)
> Appt. required: Mortgage Protection
> Date/Time: TODAY, via phone, between 1-2pm
>
> PLEASE ensure you and your significant other (if applicable) are there during the allotted time. Thank you

I PAID THE HOUSE OFF ALREADY
Oh great! I also handle traditional life insurance here in the state. There have been many updates recently where folks that have gotten coverage in the past may qualify for better rates, I'll schedule a quick curtesy call to see what you qualify for.<Get back into script>

NOT INTERESTED

Ok, you're not interested.* is that because you're worried about qualifying for the coverage or the cost of the coverage? It's not typical we see people reject protection.

QUALIFYING:

Ok, that makes sense. Your file escalated to me, because I have unlimited access to products and carriers. We cover people with major health conditions all the time. Don't worry we'll revisit this and get something that makes sense for you. It's just too important not to. <Get back into script>

IT'S BECAUSE OF PRICE:

Ok, got it.* I've been hearing that. Agents have been sticking people with the wrong carriers and giving the **craziest** prices.* Do you remember what prices they were giving you? <LISTEN TO THEM> Seriously? *pause* We should have given you realistic prices in the beginning.* I'm so sorry that wasn't done the first time.* Well, let's do this, let's schedule an appointment so we can revisit this and I will take care of you personally this time.<Get back into script>

I ALREADY HAVE A POLICY (REMEMBER to ALWAYS put the client in a BETTER position!)
Okay perfect, we may not have to go through anything then.. Which carrier did we place you with so I can close this out and stop the calls for you?

> **I don't know (or I don't have that with me)**
> No worries, I just have to find out what happened here.* There's a lot of new agents in the area* who have been putting people with the wrong carriers* and giving out crazy prices too.* I just need make sure that yours was done correctly. Actually, the easiest way to find that out is if you just pull up your banking app, you can see who's taking out the money each month.
>
> I'm driving or busy and can't get to it:
> Oh! You're driving, got it* It is very important that we find out which carrier we put you with* so that we can close it out and stop the calls for you. Let's do this, just text the name of the carrier to me by the end of today, and I will take care of it for you all. Okay?
>
> **WAIT FOR CLIENT TO TELL YOU CARRIER THEN, go to CLIENT SAYS THEY'RE WITH ANY OTHER CARRIER:**

CLIENT SAYS THEY'RE WITH ANY OTHER CARRIER:
<Repeat carriers name back in a **CONFUSED** tone>

> Are you like* really sick or something? Have you ever had a heart attack or cancer in the past,* or do you have insulin-dependent diabetes or something?
>
> **No. I'm not sick!**
> Ok, that's weird... We shouldn't have put you with <Carrier>. We usually only put people with them if they're really sick* because it's really only the bare minimum coverage. How much coverage were we even able to get in place with them? Okay. And what are they charging you? We need to go ahead and set up a follow-up appointment together. I'll take care of you personally, and again, I apologize this was not done in the first place…
>
> Did you end up receiving your policy packet? (wait for answer)
>
> > (If yes) Ok if you can do me a favor and just make sure you have that ready, that will help speed up our appointment.
> > (If no) Ok no worries. Did they even email it to you?
> > (If no) Ok, got it. It looks like a lot of things were done wrong here.

Typical Rebuttals for Appointments:

PUSH BACK ON THE SOCIAL SECURITY NUMBER: DON'T STUTTER.
It just lets them check your prescription history, makes sure you're healthy enough for the plan. Your social is what they'll use to check for that. Go ahead with your social please.

WHY DO YOU NEED MY BANKING?
Yeah, ___ the carrier needs to know you're serious about the coverage before they'll even consider you. *Stay quiet for a few seconds* Let me know whenever you have that.

I WANT TO THINK ABOUT IT
Do you need to think about whether or not you want the coverage at all,* or do you know you want the coverage,* it's just a matter of which option you want to pick?

I Do want it I just need to think: Okay perfect,* since you know you want the coverage,* what we're gonna do,* is we'll start there at the bottom with the cheapest one, and we can always bump it up. So if it's next week, next month, or next year, when you've had some time to think about this, we can always go up from there, alright?

I Don't think I need it:
Go back through and hit all the pain points using THEIR words:

- Spouse/kids/beneficiary can't make the payments
- We don't want to lose the home/equity

Still shooting you down:
Okay, then you're good to go. Once you're ready to get something solid in place to protect___ you can shoot me a text or give me a call, and I'll be happy to help. You have a good day!

IM YOUNG AND HEALTHY AND I DON'T THINK I NEED THIS
Got it, ___ can I be honest with you for a second, the reason I do what I do is that death claims are filed all the time for the old the young and even people healthier than you. The reality is you'd rather have this and not need it, than need it and not have it. So let me ask you, if you pay this ____/month and two years from now you get cancer and it pays out..like I've seen it pay out before..do you think it would have been worth it to have this coverage then?

I NEED TO TALK TO SPOUSE/ANYONE ELSE
Yeah no worries, when would be a good time to call you back?

Okay, perfect. And just so I know what to have ready for you when I call back, I just have 2 final questions for you.

1. The lowest option we covered, does that fit easily into the budget?
2. Would <SPOUSE/ANYONE ELSE> be opposed to you having coverage in place that would directly benefit them when you pass away?

If YES to both: Okay perfect that's what we need, so what we need to do is apply for the lowest one, and if we get approved and you guys talk and decide you need more, we'll scoot it up on the approval call in a few days. Does that sound reasonable?

If YES: Okay this application will take 5 minutes to submit. I want to make sure you have my number saved because you will now be one of my people and we will be speaking so I want to make sure when I call my number comes up. <Keep going in main Script>

DO I HAVE TO MAKE A DECISION TODAY?
Yes, I do need to submit that original coverage through today;* HOWEVER, since* most of us need time to look over our finances to see which option we want to go with,* they give you a 30-day policy adjustment period.

So we'll start with whichever option you're most comfortable with right off the bat,* and then you have a couple weeks to adjust the policy to that higher amount after you get approved. Which option do you want me to shoot for for the approval?
